**“BOOST” OF ENERGY AND GEO-PHYSICAL QUANTUM PROPERTIES:**

**Unity will transmute bad energies:**

You can get amazing, dramatic results in terms of rapid growth, natural appearance and taste when you use the Orgo-Life Quantum Equalizer® technology unit and improve plant growth and sprouts (home plants).

Speaking of such an example, many types of sprouts (homemade sprouts) that you grow in water, which is super charged with vital energy, they take less than two days to be edible instead of the usual three days. Orgo-Life Quantum Equalizer® technology helps maximize germination.

In fact, methods for improving plant growth with the addition of Orgo-Life Quantum Equalizer® technology are very old. Plant growth occurs best with the natural energy sources that surround them rather than those compared to normal growth without any form of these energies.

Improving plant growth with Orgo-Life Quantum Equalizer® technology and radionics is easy. You can see the results very soon. These visible results have been tested over and over again using scientific methods.

One of the simplest methods, of course, is the water treatment you use on the plants. It is obvious that plants prefer living water, i.e. water that is overloaded with vital energy, i.e. water generated by the exclusive technology of Orgo-Life 5G & EMF Quantum Equalizer®. You can achieve even better effects with water that is also programmed for certain desired results such as resistance against specific diseases or pests.

Naturally, a week or two of using Life Energy-saturated water on your houseplants can give you the proof you want or think.

Another method instead of charging the water with vital energy, you can also think of also charging the fertilizers, even artificial fertilizers, in which case the foods you grow can almost acquire that unmistakable fine organic generating power. Such plants, although not completely corresponding to those grown organically, certainly come close to such strength!

*Note that; that your Orgo-Life® device is handmade, they all have small mini defects, very small holes, etc... when looked at very closely 5-10 cm (2-4 inches) , but at a good distance of 1.5 feet and more, they look perfect. Due to the manual work and the polyester resin product with the Orgo-Life, it is normal to look like this. Orgo-Life is a unique technology that can only be made by hand. It is above all an artisanal product.*
